B.sc Computer Science and Engineering Student

Objective:

To work in a professional environment where I will be able to use my programming skills to meet the corporations goal.

Job Experience:

- ManGoes Mobile. (iPhone app developer). (From April 2011 To Present).
 - Gained valuable technical experience and also developed personal effectiveness within a corporate environment.

Projects:

- Change
A crowdsourcing platform for the mass population of Bangladesh. Won top ten position at Basis SofExpo IISP 2012. There is an iPhone, Android and web version.
Available at: <http://www.changebd.net>
- Doc2Doc
Ongoing project at ManGoes Mobile. Project Responsibilities: iPhone developer.
- Swinfen
iPhone client project at ManGoes Mobile. Project Responsibilities: iPhone developer.
- inTown
iPhone client project at ManGoes Mobile Project Responsibilities: iPhone developer.
- “Did you mean” query for Bangla Search Engine (Thesis project)
If you google with a misspelled keyword Google suggest you with a “Did you mean” option for English. But for a misspelled Bangla query it will not return you with a “Did you mean” option. Google provides only exact search for Bangla. Our goal is to make a “Did you mean” feature for Bangla.
The project is based on three open source projects Apache Lucene , Nutch and Solr.

Participations:

- Participated in BASIS SoftExpo IISP 2012. (Secured top ten position).
- Participated in National programming contest in University of Liberal Arts (ULAB) in 2008
- Participated in International Collegiate Programming Contest (ICPC) 2008 in North South University (NSU).
- Participated in International Collegiate Programming Contest (ICPC) 2009 in North South University (NSU).

Memberships:

- Former student member of ACM.
- Former member of BRAC University Computer Club.

- Former director, Software and Hardware Interfacing Projects BRAC University Computer Club (BUCC).
- Former member of OIKOS Dhaka.

Skills:

Programming Skill:

- Java (j2se), Objective C (Working as a full time iOS developer for more than 1 year).
- Familiar with: C/C++,HTML,CSS, PHP, Codeigniter PHP Framework, JavaScript, jQuery, jQuery Ui, jQuery tools.
- OpenGL
- Also familiar with Matlab.

Software & Technologies:

- Database: MySQL and Oracle Server
